YouTube for Hobbies / Interests

Learn English and new skills by listening to lessons on You Tube.

If there is a topic that you are interested in learning about, try to learn through English! For example, if you would like to learn about drawing or painting just go to YouTube and type the word into the search bar.

Lots of choices will come up for you, so take some time to find a lesson that you like. It is important to choose a topic that interests you!

Keeping a diary in English

Keeping a diary is a great way to improve your English and to help with your English writing. Keep it simple! At the end of each day, write 5 sentences about your day. Use an online dictionary or translator to look up new words or phrases. This will help your English words to grow.

You will also find yourself repeating sentences, especially when we are all in the current situation. This is a good thing for your English learning: repetition makes our language skills stronger!

Watch TV shows in English

Watching TV shows in English is a great way to keep learning. Remember the RTE Player is free to download to your mobile phone. It also gives you the chance to listen to people speaking in an Irish accent. When you watch something try to get an idea of what is going on, but don't worry about not understanding everything. This is normal for everyone when they watch something in a language that they are learning. Don't forget your 'ear' is learning the sounds and pace of the language as you listen and that is important.
